na h-Alba

Tuarascáil Deiridh

"It was amazing because only 35 children in the whole of Ireland were part of it and I was one of the ones that they randomly picked. I think I was the youngest one! And it was great to make new friends there and it was nice having the thought of being part of changing the world into a better place."

Fiadh

Assembly member, age 7

How could you involve children and young people in climate assemblies? What would this look like in your context?

How would you make this happen?

What barriers or challenges might you face?

What information / types of support would be helpful for you?
